Art Unit: 1654

1. This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the following reasons:

The Sequence Listing filed October 4, 2002 is objected to because it was filed without a statement that it includes no new matter. See 37 CFR 1.821(g) and 1.825(a). Correction is required.

The Sequence Listing filed October 4, 2002 has otherwise been approved for matters of form.

2. Claims 26-31 are objected to because of the following informalities: Claim 26 at lines 9-10 contains underlining which should be deleted. Appropriate correction is required.

3. Claims 26-31 would be allowable if rewritten or amended to overcome the objection set forth in this Office action.

4. The examiner telephoned Applicants' attorney on November 12, 2002 to request an examiner's amendment to place this application in condition for allowance. However, the telephone call was not returned by the time it became necessary to prepare this Office action.

5. The reference listed on the Information Disclosure Statement filed October 15, 2002 is crossed off because it is a duplicate citation, the reference having already been cited on the Form PTO-892 attached to the previous Office action.
